

Preventive Services Increased coverage is a good thing

New preventive health care services for our members

Arise Health Plan recently reviewed our coverage of preventive health care services based on requirements of the new health care reform law. Our coverage already included many of the required services. We are now proud to offer a range of new services to our members, including all preventive services rated A or B by the United States Preventive Services Task Force.

Added services include: counseling intervention, some new screening tests, and additional services related to previously covered screenings and vaccines.

For a complete listing of covered preventive services, please see your Certificate of Coverage or contact our Member Services team at 1-888-711-1444.

Preventive Services	Participating Providers	Non-Participating Providers
Routine physical exams (including pelvic exams, pap smears, and any related routine diagnostic services)	100% coverage, deductible waived	No benefits
Well baby care (including any related routine diagnostic services)	100% coverage, deductible waived	No benefits
Routine immunizations As recommended by the Advisory Committee on Immunization Practices. Immunizations for travel purposes are not covered.	100% coverage, deductible waived, no age limit	State mandated immunizations for children from birth to age 6 are subject to your deductible and coinsurance.
Mammograms Covered expenses include one routine screening exam per calendar year for covered persons age 40 and over. A routine screening mammogram is a specific procedure performed for detection of a clinically unrevealed disease. A diagnostic mammogram is a specific procedure performed when the covered person has a symptom or history of breast abnormality or cancer. Diagnostic mammograms are subject to the covered person's deductible and coinsurance.	100% coverage, deductible waived	100% coverage, deductible waived
